THE MAIN FACTS AND FIGURES OF THE EXHIBITION «UzStroyExpo-2022»:

THE OPENING CEREMONY OF THE EXHIBITION «UzStroyExpo-2022»

On October 26, at 11.00, the official opening ceremony of the exhibition «UzStroyExpo-2022» took place in Pavilion No. 1, NEC «Uzexpocentre». The ceremony was attended by:

- Bobokulov Bakhtiyor Bahronbekovich - Deputy Chairman of the Board of the Association «Uzpromstroyaterials»;
- Dilmurod Khasanovich Eliboev, Chief Specialist of the Department of Contract Works and Development of the Construction Industry of the Ministry of Construction of the Republic of Uzbekistan;
- Ibragimov Omonnula Fayzullayevich, Advisor to the Chairman of the Board of the Association «Uzpromstroyaterialy»;
- Ambassador Extraordinary and Plenipotentiary of Slovakia to the Republic of Uzbekistan, Mr. Jan Bori;
- The Economic Adviser of the Embassy of the Islamic Republic of Iran is Mr. Mahdi Heidari Fard.

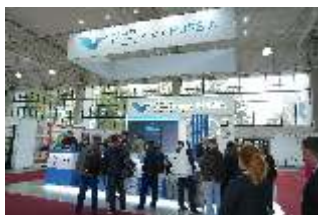

INFORMATION ABOUT THE EXHIBITION «UzStroyExpo»:

Within the framework of the exhibitions, a number of collective stands of large regions of the Russian Federation were presented. Among them, the Moscow Export Center, the Stavropol Territory, the Republic of Bashkortostan, the Rostov Region, as well as the Chuvash and Udmurt Republics offered the latest products and the latest technologies for the energy and construction industries. Traditionally, I was pleased with the composition and the presence among the exhibitors of numerous participants from Iran, the Republic of Belarus, Kazakhstan, China and Turkey. It is gratifying to note that every year the number of domestic manufacturing enterprises with competitive, import-substituting products increases.

The combined exposition allowed expanding cooperation between representatives of related industries, discussing market development prospects with specialists, getting expert advice, as well as finding new business partners and concluding mutually beneficial contracts.

The main sections of the exhibition «UzStroyExpo»:

- Industrial, civil and road construction;
- Construction equipment;
- Building materials;
- Finishing materials;
- Heating and ventilation;
- Water supply, water treatment;
- Interior design;
- Windows and doors.
