CONSTRUCTION AND  
FINISHING MATERIALS.  
CONSTRUCTION MACHINERY  
AND EQUIPMENT. HEATING  
AND VENTILATION SYSTEMS.  
WATER SUPPLY. DESIGN.

The UzSroyExpo – 2025 construction technologies exhibition is gaining particular relevance amid the active development of the construction industry in the Republic of Uzbekistan. In accordance with the Presidential Decree of the Republic of Uzbekistan «On the Approval of the Strategy for Modernization, Accelerated and Innovative Development of the Construction Industry for 2021–2025» and recent government initiatives, the sector faces the task of rapidly increasing production capacities and expanding the range of new energy-efficient and modular prefabricated housing solutions.

The exhibition covers key areas, including construction materials, construction machinery and production technologies (such as processing, welding, and manufacturing equipment), engineering systems, decorative and finishing materials, as well as modular and prefabricated housing construction. It is worth noting that a significant share of exhibitors represent companies from China and Russia, highlighting the growing international interest and the increasing integration of Uzbekistan's market with foreign partners.
